Sales for the beverage business grew even though ready-to-drink tea sales dropped. The success in the beverage business in the past year was due to; the Company’s success in maintaining its leading status in the ready-to-drink tea and ready-to-drink green tea markets, in managing costs, in effective manufacturing, its success in raising brand awareness, in generating revenue from the product manufacturing under the Company brand and Original Equipment Manufacturer (OEM), and its effective and creative marketing activities. Furthermore, Mrs. Chitkasem Moo-Ming reported to the meeting on the Company's anti-corruption operations which the Company has emphasized and made clear intention by adopting the anti-corruption procedures as a part of the Company's Corporate Governance policy, posted on the Company's website; section "about us" subsection "corporate governance" and published in Annual Report (pages 118 to 119). In 2015, the Company, as a listed company, was appraised by Thaipat Institute, in relation to the level of sustainable anti-corruption development, and was placed on the third level (Established), which means that the Company had done the following things: formulated the anti-corruption policy, conducted a risk-assessment, communicated with and trained employees, and continuously observed, followed, and re-evaluated the appropriateness of the Company's anti-corruption measures. Moreover, the Company continuously and regularly co-operated and participated in anti-corruption activities with various private agencies such as the Thai Chamber of Commerce, and the board of Trade of Thailand, which are important members in establishing the cooperative anti-corruption projects.

At the end of the report, Mr. Marut gave opportunity to the shareholders for additional inquiries or suggestions.

Mr. Hangchai Akkawasakun, a proxy acting on behalf of the Thai Shareholders Organization, expressed his appreciation to the Board of Directors and the management team of the Company for their hard work and dedication resulting in a satisfactory return on investment in spite of the present economic situation. He opined that the expansion of company business investment into the countries in the ASEAN Economic Community was an admirable idea. Not only generating revenues to the Company, it would also making reputation of our nation. He also asked about a rumor concerning the National Reform Steering Assembly's taxation measures to be imposed on beverages containing a high level of sugar in order to improve health. Such measures could have an effect on the business activities of the Company; as a result, he asked about the Company's plans to deal with the situation.

Mr. Marut informed the meeting that the Oishi's Group was aware of the matter and had been closely following up on the matters. The group had also been considering countermeasures to cope with such issues. Moreover, it was willing to comply with any measures and legal requirements which may be promulgated in the future.

Mr. Thapana Sirivadhanabhakdi, Vice - Chairman, informed the Meeting that taxation measures imposed on beverages containing sugar at a level higher than that stated in the health-standard criteria of the National Reform Steering Assembly (NRSA) would be something new for Thai society and would affect the processed food and beverage industries in a wide variety of ways. He believed that the relevant agencies would carefully evaluate

such measures. The group will follow up the latest developments carefully so that it could be able to cope with the situation in an appropriate manner. However, in foreign countries, such matter is not new and some countries have already enacted the taxation measures for beverages containing a higher level of sugar than that stipulated in the health-standard criteria. Countries in the European Union and in the Scandinavian group, for instance. Besides, the Company is considered as a leader in producing and distributing low-sugar beverages. As a result, shareholders could be assured that the Company had paid adequate attention to the matter and was well-prepared to deal with the matter in an appropriated manner.

The Chairman informed to the Meeting that the Board of Directors and the managements acknowledged and followed up such matter closely. He then requested the meeting to trust that the Company is able promptly cope with the situation.

Mr. Hangchai suggested that if the Company had already been working on that matter, then the Company should communicate to the consumers that it was a leader in such matters in order to reassure them and obtain a positive response from them.

Ms. Orapan Assamongkol, shareholder of the Company, made an inquiry about the countermeasure in case the green tea market does not expand or reduce its expansion, and is there any initiation on the launch of the new products besides green tea.

Mr. Thapana explained to the Meeting that the Company started and innovated the new products in form of both green tea and non-green tea products in order to response to the consumers' need continuously. These products will maintain the distinguished Japanese identity.

Ms. Orapan inquired more about the possibility that the Company would launch any new products other than those under the "Oishi" brand and also if it would launch any products other than those following Japanese models.

Mr. Thapana informed the Meeting that the launch of new products under the new brand requires rather high expenses to be invested for creating brand awareness. As a result, careful consideration on the matter is required. The growth of the green-tea beverage market in the past two-to-three years had been driven unusually through the aggressive competition in marketing and promotional activities. Even though the growth of green tea beverages' market showed a tendency to decline, the Company had launched various new kinds of products, including the high quality products, and expanded the sales of the Company's products in the international market in order to expand its consumer base and increase business opportunities. Shareholders could, thus, be assured that the Company would grow and retain its competitive potential in such situation. The Company would proceed with production by essentially identifying with its Japanese identity. However, the Company had cooperated with Thai Beverage Public Company Limited Group in order to produce and distribute other products. This cooperation is considered as a way to strengthen and improve its competitive capability; it also allows for a sharing of resources in order to maximize its usefulness. Moreover, the company had expanded its investment in the 4th Cold Aseptic Filling production line project in order to support future expansion of the Company's business. Because of all the aforementioned, shareholders could be assured that the company would be able to deal with the economic situation and market conditions in an appropriate manner.

When there was no other inquiry or suggestion, the chairman expressed his gratitude to all shareholders for their support and trust in the Company. The Board of Directors, the managements and all employees of the Company pledged to work hard and deducate for the success of the business activities in the following year, 2016.

The Meeting acknowledged the business operating results for the year 2015 and the report of the Board of Directors, as presented in all respects.

Mr. Vikrom further explained that the Company had an announcement on its website and via SET Portal inviting the shareholders to nominate any persons who would be qualified to be a candidate for the Company's directorship. Ms. Naowarat Anantarak, a shareholder, inquired about the progress of the Mall Tha Phra's Shabushi outlet expansion and at the same time remarked that the shopping mall has only a few ramen restaurant outlets and that it would be a great opportunity for the Company to open and operate an Oishi Ramen outlet there. She then inquired whether the change of the fiscal year will affect the dividend payment for the year 2016 or not.

Mr. Marut Buranasetkul explained to the Meeting that the Company has taken the advice of the Shareholder into consideration and concluded that the current Shabushi outlet area could not be expanded just yet and that the shopping mall has no area available for the opening of another Oishi Ramen outlet. However, there is a possibility of expanding another outlet operating within the Mall Bang Kae, situated nearby. Moreover, the Company also contemplating the prospect of opening and operating restaurant outlets in the area along the sky train and subway system to accommodate consumers within the Thonburi side of the Chao Phraya River. He then asked the Mr. Paisarn Aowsathaporn, Executive Vice President Food Business, to explain to the Meeting in more detail.

Mr. Paisarn explained to the Meeting that, in deciding to expand the area of an existing outlet or opening new one, the Company needs to take various factors into account including the concept, the consumer target group and the operating area. He remarked that, in the future, many shopping malls will be opened along the sky train and subway system on the Thonburi side of the Chao Phraya River, this could be a great opportunity for the Company to expand and open new outlets to accommodate the consumers within the area.

Mr. Nipand Chittavoravanich, a shareholder, inquired about whether or not, and if so, how the acquisition of Big C Supercenter Public Company Limited by the related company, which in his opinion should be an important distribution channel of the Company, shall affect the operation of the Company in the next 5 years. He also inquired about the growth of the green tea business within the next 5 years.

Mr. Thapana Sirivadhanabhakdi, explained to the Meeting that the change in the fiscal year shall result in the year 2016 consisting of only 9 months and the dividend to be paid shall be based on the Company's performance during that period. As for the acquisition of Big C Supercenter Public Company Limited, he explained that the acquisition was

executed by Berli Jucker Public Company Limited and as such any transaction between the related parties has to be done objectively, appropriately and on the basis of mutual benefit. Nevertheless, this may be an opportunity for the Company to strengthen the relationship it has with Big C Supercenter Public Company Limited. Despite this, the Company still has aiming to objectively strengthen its relationship with other existing alliance, business partners that the perspectives of Thai people on the benefit of green tea are different than people from other countries. For instance, Singapore or Malaysia, the countries where the major populations are Chinese, the consumers there tend to prefer Chinese tea or black tea. However, due to the fact that the general consumers consider green tea as the product of higher or premium quality, this could be a chance for the Company to build up the association and the growth of green tea market in ASEAN countries. As for Thailand, competition in green tea market remains high for, apart from the type and benefit of drinking tea, promotional activities are also one of the important factors taken into consideration by consumers.

Mr. Thamrong Anuntaveepol, a shareholder, inquired further about market share of the Company as well as the size of the green tea business within Singapore and Malaysia beverage market. He also inquired whether there is any different between the green tea recipes used in Singapore and Malaysia, countries whose people generally prefer non-sweetened tea, and those used in Thailand and the marketing strategy employed by the Company in those two countries.

Mr. Thapana explained to the meeting that, when it comes to the overseas businesses, the Company is only in the starting phase, creating brand recognition, a process of which takes considerable time. The Company has been cooperating closely with Fraser and Neave group of companies (F&N), one of the groups of companies within Thai Beverage Public Company Limited, on matters concerning marketing activities. Mr. Thapana then asked Mr. Marut to explain to the Meeting in more detail.

Mr. Marut explained to the Meeting that the expansion of green tea business in Singapore and Malaysia which was done through Fraser and Neave group of companies can be considered successful with continuous growth. The products that were offered in those countries were manufactured using the same recipe as the product offered in Thailand. He remarked that the fact that the Company is successful in distributing its products in Singapore helps improve the brand image considerably since Singapore has very high standard and requirement for the food products.

Mr. Nipand further inquired about the Company's strategy to improve the performance of the food business.

Mr. Marut explained to the Meeting that, for the past year, the Company's food business suffered from the regressive economic condition which results in lower purchasing power of the consumers within the country. Since then the Company has reconsidered and adjusted the marketing and cost management strategies to be more efficient. After the implementation of such strategies the Company found that the performance of the business is improving and would be able to retain such level of performance in the long run.

Ms. Naowarat opined that giving 50% discount in all outlets as a promotional activity may help improve the performance of the Company's food business.

Mr. Marut thanked the shareholders for their opinion and advice and stated that the Company shall consider them and proceed as appropriate.

Mr. Hangchai stated that he agreed with and applauded the Company's decision to change the fiscal year as this would reduce the clustering of Annual General Meeting and auditing during the usual time. He also applauded the decision to acquire Big C Supercenter Public Company Limited and stated that the acquisition is the pride of Thai's people. He then opined that the Company should consider opening and operating a restaurants chain which offer Japanese-style breakfast and coffee within Big C shopping marts situated inside gas station since this type of business is currently very popular and considered interesting by the consumers. He later congratulated Mr. Thapana Sirivadhanabhakdi, Mr. Ueychai Tantha-obhas and Mr. Sithichai Chaikriangkrai for being re-elected as the Company's directors for another term. He then expressed his hope for the performance of the year 2016, which consist of only 9 months, that the Company shall perform well and that the dividend to be paid shall be equal or higher than the dividend paid this year.

Mr. Thamrong asked about the market share of the Company, the size of the green tea market within the beverages market, the recipe of the green tea products that are being distributed in Singapore and Malaysia as well as the marketing strategy for those countries.

Mr. Marut explained to the Meeting that the recipes of the green tea products that are distributed in those countries are the same as the products that are being distributed in Thailand. He elaborated further that there are a considerable number of consumers who prefer sweeten tea. As for the market share of the Company and the size of the green tea market within the beverages market, he hoped to relay to the Meeting these information upon the next possible occasion.

There was no further inquiry or suggestion from the Shareholders, the Chairman informed the Meeting of the direction of the Company's business under the management and policy of Mr. Thapana Sirivadhanabhakdi.
